## ONE NAME SAYS IT ALL

One name captures almost 500 years of combined business experience...  
the **long-term relationships** built through partnering with customers,  
consulting engineers and architects...  
the reputation we've earned for **high-quality products** and expert advice...  
the commitment we make to **performing at the highest level**...  
the leadership position we've carved out in engineered solutions,  
infrastructure and construction products...  
the wealth of knowledge and **technical expertise** of our people...  
and the passion we share for helping our customers succeed.

## FROM NOW ON, THAT NAME IS ARMTEC

—  
48 LOCATIONS  
ACROSS CANADA

AS OF 2010, WE'RE COMING TOGETHER TO SERVE OUR CUSTOMERS BETTER,  
AS ONE COMPANY, WITH ONE NAME. MOVING FORWARD, FOCUSED ON YOU.

—  
DEDICATED LOCAL SERVICE

Our business was built on being close to our customers and partners. We're located where you are, so we understand your business, we know how to get things done and we can deliver the products, service and advice you need, when you need them.

Going forward, it gets better. In the new Armtec, we're reinforcing our regional sales, service and technical teams with people of exceptional industry experience. Our people know the local market inside and out. They're committed to working together to deliver the high level of service your business demands. And, they have the resources and ability to make the decisions and develop the unique solutions that support your success.

—  
STRONG NATIONAL PRESENCE

There are advantages that come with size, including our broad product range, comprehensive network of production facilities and offices, and added stability. We'll ensure that you benefit from these strengths as well.

We've put in place processes to share the incredible wealth of knowledge and technical expertise our people possess and to accelerate product innovation across the company. We're creating national programs and leveraging our scale to drive process efficiencies. What's more, if your business expands across or even outside Canada, we'll be in a position to help you.

Together, we're enhancing our commitment to your success.  
Building on the best of our individual companies to deliver  
innovative, highest quality solutions.

*Share your vision with us...and you can consider it built.*

## EXCEPTIONAL PRODUCT RANGE

We offer one of the most comprehensive ranges of construction and infrastructure applications and engineered solutions in Canada. The companies that have come together as the new Armtec have set a high standard for quality in their products and services, and we intend to uphold it.

Our exceptional product range includes

- A wide range of products for drainage, bridge applications, soil retention, rehabilitation and water management systems including corrugated high-density polyethylene, corrugated steel and concrete pipe
- An array of industry-leading architectural and structural precast and pre-stressed concrete products, from steps, paving stones, slabs and wall panels to highly engineered structural components designed and installed for projects such as bridges, sports venues and parking garages
- A full suite of noise barriers, acoustic enclosures and wall systems, along with associated retaining and traffic barrier systems
