PRECAST CONCRETE STEPS

ARMTEC'S PRECAST CONCRETE STEPS PROVIDE A WELCOMING ENTRANCE
TO HOMES AND PUBLIC BUILDINGS

PRECAST CONCRETE STEPS

Armtec precast concrete steps and stairwells provide a high-quality, durable entrance to homes, apartments and condominiums. We offer a variety of styles, from standard models to prestige or custom-built steps with architectural etched details, coloured concrete and unique surface finishes for increased visual impact. Non-slip surfaces provide greater safety in wet conditions.

Performance

Proven strength, durability and low maintenance of precast concrete

Easy to install

Built in our plant and delivered ready to install, at any time of year

Stability

Installed using precast support brackets to eliminate sinking and shifting

Variety

Range of sizes and finishes to suit most project requirements and budgets

TYPICAL APPLICATIONS

- Residential and commercial buildings

Armtec is a leading Canadian infrastructure and construction materials company combining creative engineered solutions, relevant advice, dedicated people, proven products and a national presence with a local focus on exceptional customer service.
